

# Christoph Haering

**IIBCC**

International Inorganic-Bonded Fiber Composites Conference

**Position:** Managing Director

**Contacts details:**

**Telephon:** +41 41 781 41 36

**Fax:** +41 41 781 41 37

**e-mail:** cemtec@mails.ch

**Adress:** CemTec Beratung GmbH, Feldstrasse 10, CH-6330 Cham, Switzerland

**Qualifications:**

1971, Graduation as Mechanical Engineer

**Experience**

1973-1979 Project Manager at Swiss Eternit Group; Build-up and management of asbestos cement plant in Colombo, Brasil

1979-1982 Technical Consultant at Swiss Eternit Group; Trouble-shooting at cement plant in Osadano, Japan.

1982-1986 Laboratory group leader at Swiss Eternit Group; Development of new technologies to manufacture asbestos free products; Implementations of laboratory knowledge in practice worldwide. Responsible for basic research projects to investigate the influence of raw materials and process parameters on the product's long term behavior in field applications. Study interactions between cement type and processes.

1986-1993 Technical Project Leader at Swiss Eternit Group; Introduction of asbestos free technologies and build up of quality system in the two Swiss factories

1993-1994 Technical Consultant a Creabeton, Lyss, Switzerland; Trouble-shooting at concrete sewage pipes factory in order to overcome production problems by adjusting cement type and quality

Since 1994 Founder and Managing Director at CemTec Consulting GmbH, Cham; Consulting of main pre-cast concrete and fiber cement manufacturers. Publication of concrete related articles in technical journals. Developing of a concrete- and fiber cement mix design software and sample maker.

1998-2007 Member of the Board at Eternit Ludwig Hatschek, Austria, the origin factory of fibre cement; Responsible for production, engineering and R&D.

**Technical or scientific areas of interest**

Production and technology of drycast concrete and fibre cement
