

Abel Olorunnisola

Position: Professor

Contacts details:

Telephono: + 234 -803-472-4945

Fax:

e-mail: abelolorunnsola@yahoo.com

Adress: Department of Agric. & Environmental Engineering,
University of Ibadan, Nigeria

Qualifications:

1997, **Ph.D**

1992, M.Sc.

1989, B.Eng.

Experience

1993-2003 Lecturer/Senior Lecturer

2003–2006 Associate Professor

Since 2006 Professor

Technical or scientific areas of interest

I am interested in cement-bonded wood composites development and performance characterization. I conducted studies on the use of wood-cement composite as low-cost building materials, using rattan, coconut husk, baggase, eucalyptus veneer waste and waste paper as feedstock materials. Based on laboratory studies, the work has been extended to investigations on the manufacture of composite products such as roofing sheets, floor and wall tiles.
